

Advertising, Affiliate and Joint Venture Opportunities: Promote to Universal Solutions Database

Some of the companies promoted in the past or current clients:

Warren is the co-author of the 'Secrets of Stock Market Traders Exposed' from the best selling series with Dale Beaumont

For the past ten years I have promoted a variety of trading companies via email broadcasts, webinars and live seminars. Many have benefitted from access to my database and several have built multi-million dollar organisations.

Now you have the opportunity to utilise this promotion vehicle.

We have tested results of marketing campaigns previously in several ways including sales based on attendance at our own events such as Traders and Investors Congress. In one year, we outperformed two large databases (over 100,000 email addresses) and in once case a 100,000+ fax transmission.

Why? Because our database is **highly targeted** for trading and investing information. Many of our clients have purchased more than \$20,000 worth of programs over ten years so we already have very high rapport and trust levels.

What exactly is the database?

- Over 90% are traders or prospects looking to buy a trading education
- Over 40% are already trading, mostly options and CFD's
- Over 95% reside in Australia and New Zealand
- Over 50% have been on our database for more than five years; some for as long as ten years.

If you have a need to access prospective traders and investors and you are serious about promoting your products in Australia I suggest you look at our advertising package. It includes:

- Two unique email broadcasts to our database
- Three "positions" on our website for twelve months [re-launching 1st December 2010] to generate ongoing promotion and sales.

If you would like to discuss how your company can benefit from access to our database and experience from our successful marketing strategies please contact:

Warren Stokes

TEL: 1300 656 940

MOB: 0425 322 997

Email: warren@universalsolutions.com.au

Positions for email broadcasts are fully booked for October. Please check for the next available date for email broadcasts.

Universal Solutions Australia Pty Ltd: **Current at 1st October 2010**
